1. ☒ The amendment filed on 08 October 2008 under 37 CFR 1.312 has been considered, and has been:

- a) ☒ entered.
- b) ☐ entered as directed to matters of form not affecting the scope of the invention.
- c) ☐ disapproved because the amendment was filed after the payment of the issue fee.

Any amendment filed after the date the issue fee is paid must be accompanied by a petition under 37 CFR 1.313(c)(1) and the required fee to withdraw the application from issue.

- d) ☐ disapproved. See explanation below.
- e) ☐ entered in part. See explanation below.

Concerning the first amendment, the Examiner has authorized the replacement of octadecylcyclotetrasiloxane with octamethylcyclotetrasiloxane under the heading Example 1 for no reason other than octadecylcyclotetrasiloxane could not be used to make poly(methylhydrogensiloxane-dimethylsiloxane) copolymer. The reasons why this change should be permitted as surmised by Applicant are either unconvincing or non-sensical ("cyclotetrasiloxane does not have 18 substitution points").
